

M.J. Biopharm Pvt. Ltd.

20TH JULY 2021

M.J. Biopharm has 2 different facilities/sites

Pune - API Production, PDL & Formulations

Manufacturing recombinant human insulin on a commercial scale, current capacity of 450-500 kg/yr

Under NBM project - will soon be inaugurating new 100L CGMP PDL & high speed formulations line for Vials & Cartridges

Taloja (Navi Mumbai) - Formulation Unit

Established in year 2000 for manufacturing life saving injectables including Human Insulin and high end antibiotics

M.J. Biopharm - General Overview

We have a rich heritage

We have been in the industry for more than 20 years

We are an established name for life saving products in Diabetes, Cardiovascular, NSAIDS and Antibiotics

We are globally established

Our pharmaceutical formulations are accredited and sold in 30+ countries globally

Our export based business strategy has been key to the growth of the company - we are present in APAC, Africa, Eurasia and Latin America

We are experts at insulin

We are end to end manufacturers of Insulin, from API to formulations (incl. ampoules, PFS, vials, cartridges & disposable pens)

We are a leading insulin manufacturer in India, & one of the main suppliers to government institutions around the country (preferred supplier to Pradhan Mantri Bharatiya Janaushadhi Pariyojana (PMBJP))

We are committed to growth

Our revenue CAGR has been ~17% over the last 3 years

We have initiated a number of projects which will allow us to more than double our overall capacity in the next 2-3 years

We believe in data driven decisions

With the support of BIRAC - we are creating a cGMP compliant PDL at 100L fermentation capacity with matching down stream processing to take up development of Biotech products

In addition, we are creating a modern research and development facility for formulation development of our products

M.J. Biopharm - Vision & Mission

Our Vision Statements

Improve access to
life sustaining
therapies

Discover, Develop &
Commercialize
Quality Bio-similar
products

Collaborate with
like-minded
organizations to
expand the reach of
life saving products

Our Mission Statement

We are committed to
serving our customers by
providing timely delivery
of high quality
bio-therapeutics at
competitive prices

New 100L CGMP PDL

Our new, state of the art,
100L CGMP facility is
extremely versatile & can be
used for various applications

- 1 Cell Bank Preparation & Storage
- 2 Process Scale-Up (Upstream & Downstream)
- 3 Manufacturing at 100L Scale
- 4 Product Testing, Release & Stability
- 5 Manufacturing for Pre-Clinical, Clinical & Commercial Purpose

New Formulations Facility

Our new, state of the art facility will be capable of manufacturing both Vials & Cartridges

- 1 Manufacturing of vials (up to 60 Mn/year)
- 2 Manufacturing of cartridges & pen assembly (up to 50 Mn/year)
- 3 Vaccine, monoclonal antibodies, insulin manufacturing
- 4 Product Testing, Release & Stability
- 5 Compliant with USFDA, WHO GMP & EU GMP norms

Our Promise to Customers

To provide biopharma services as a one-stop-shop, with a clear focus on **QCD**:

- 1** **Q**UALITY: Impeccable
- 2** **C**OST: Affordable
- 3** **D**ELIVERY: Faster

BIRAC - NBM

Expertise, positive mindset & funding to support the sustained growth of the Indian subcontinent

M.J Biopharm

Execution capability along with commitment to **QCD**, which ensure only the best for all customers
