

## *A warm welcome to Centre of Excellence for Biopharmaceutical Technology!*

The **Center of Excellence for Biopharmaceutical Technology (CBT)** was established at IIT Delhi in 2015 by the Department of Biotechnology, Government of India, in recognition of the importance of Biotechnology for India, particularly that of producing **affordable biotech therapeutics**.

The vision of CBT is to deliver innovation in biopharmaceutical technology to effectively address the challenges faced by the Indian biotech industry and thereby assist in the “**Make in India**” initiative by making India the **global hub** of manufacturing economical, safe and efficacious therapeutics.

CBT aspires to achieve this tall objective by providing a foundation of scientific and technology development to create **novel technologies**, engage with the biotech industry to **translate** these into applications, and finally to offer short term training courses to industry, academia, and regulatory agencies to facilitate **creation of an ecosystem** that delivers **affordable biotech therapeutics** to India and to the world.

CBT is bringing forth a **world class training program** that brings together leaders from across the world to come together and share the best practices and cutting edge technologies on a diverse set of topics:

**Elucidating the Guidelines on Similar Biologics for India**

**Continuous Processing for production of Biopharmaceuticals  
Process Optimization and Scale-Up with Single-Use Bioreactors**

**Prof. Anurag S. Rathore**  
Coordinator, CBT, IIT Delhi

**Formulation and Stability of Biotherapeutic Product**

**Multivariate Data Analysis for Bioprocessing Data  
Proteomic Characterization of Biotherapeutics**

**Design of Experiments**

**Computational Fluid Dynamics**

**Prof. James Gomes**  
Co-Coordinator, CBT, IIT Delhi
