

Project Description Form, Indo-Swedish Joint Call on Circular Economy

Maximum 10 pages in size 12 font.

Please make sure you address each criterion for the call (see the call guidelines) in the project description.

Project summary

Summary of the project.

Background and state-of-the-art

Include description of how the proposed project relates to existing solutions and related solutions under development.

Describe the relevance of the project to the aim of the call and how it will contribute to that aim.

Project aims and goals

Please write clear, specific, realistic, and measurable goals for the project. Describe what will be achieved with the project funding and how this is central for the transformation to a sustainable society.

Work plan

Describe the work tasks, deliverables, resources used in each work package (WP), roles and responsibilities. Include a plan for how the results from the projects will be transferred to other contexts and a risk analysis. Visualize the work in a timeline.

Work package/Activity	Roles and Responsibilities
WP 1, Title, estimated time in man-months and budget	<i>Lead</i>
<i>Short description of aim and work and contribution of each participant.</i>	<i>Participant 1, Participant 2, And so on</i>
Deliverables	

WP 2, Title, estimated time in man-months and budget	<i>Lead</i>
	<i>Participant 1, Participant 2, ...</i>
Deliverables	

Add as many work packages as needed to describe the project

Potential and impact

Describe the potential and impact of the project – in both short and long term – on sustainable development if the project is successful. The description must include how the results will benefit both women and men.

Describe communication and dissemination plans, including how to involve relevant stakeholders.

Project consortium

Describe the coordination of the project.

Describe the role of each project partner and how their expertise fit the aim and goals of the project and complement each other in achieving the common goal.

Describe how the expertise and capacities of the participating partners cooperate to benefit the quality of the work and fulfilment of project aims and goals. How will the collaboration generate mutual added value to the respective work and competence of the applicants? In which ways is the collaboration based on equal participation and how will it lead to mutual exchange of knowledge? Describe how the project team is composed when it comes to gender balance and influence. In the event the gender balance among the project participants is unequal (not within 40/60%), describe long-term goals related to equality and how you will work to approach these goals.

Describe the added value of the bilateral collaboration and how both India and Sweden will benefit from the project results.

Total budget of the project, including all funding
