Agri Blockchain SaaS Platform

Domain: Agri-technology & Agri-inputs

Blockchain SaaS platform that provides transparency and traceability solutions improving efficiency, visibility and compliance of Agri value chains. The platform provides sub-tier visibility ensuring provenance and compliance information to be shareable, accountable and verifiable. The platform integrates to all major Enterprise Resource Planning processes, lowers time to value and cost of ownership. Increased supply chain transparency empowers stakeholders and drives economic growth, environmental sustainability and social development.

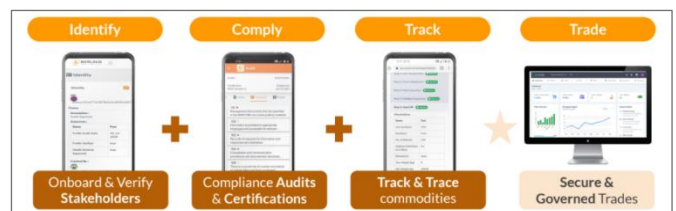

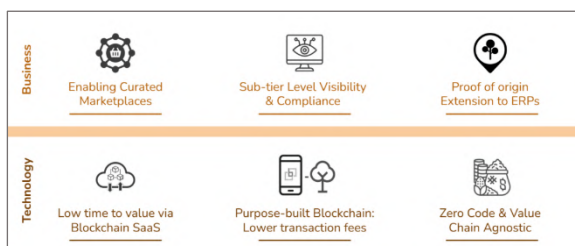

Value Proposition: The agri blockchain platform is open source (free to use) and decentralised. Proprietary Application Programming Interfaces (APIs) extend easier connectivity towards web and mobile applications. The APIs are adaptable to any agri business processes.

Applications: Adaptable to any agri business

Technology Status: Blockchain SaaS platform is ready to deploy to FPOs, producers, traders, bank and service providers at 1st mile, value chain aggregator and certifier.

IP Status: Registered Trademark

Market Potential: The global blockchain in agriculture and food supply chain is projected to grow from USD 133 million in 2020 to USD 948 million by 2025 with a Compound Annual Growth Rate (CAGR) of 48.1%. Compound Annual Growth Rate (CAGR) of
