Knowhow offering

Title	Mini Implant Placement Guiding Device
Knowhow is available for	A guiding device for accurately positioning mini implant between the adjacent roots of the teeth
Summary	
Advantages	Advantages of the implant placement guiding device: 1. can accurately locate position of dental implant. 2. can help to identify axial inclination of teeth roots. 3. reduces efforts and expertise of human beings for locating position of mini implant between adjacent teeth. 4. efficient and economical solution for accurately locating position of mini implant between roots of adjacent teeth.

Knowhow is listed under following categories

Knowhow from	
Scientific/ engineering subject areas	Life sciences/ biosciences & engineering
Investor interest categories	Biotechnology/ Biomedical/ Health Technologies
Industries	Medical Biotechnology, Biomed Products, Medical Healthcare, Diagnostics ;
