### Knowhow offering

Title	Robotic Device for Physical Rehabilitation & Functional Training
Knowhow is available for	Build a Robotic Device for Physical Rehabilitation & Functional Training
Summary	
Advantages	1. Gamified rehabilitation with objective progress monitoring. Doctors and physios now find it possible to document and communicate progress to our patients. 2. Improved engagement increases intensity of rehabilitation 3. Multi-limb solution. Visible improvement in range of motion, strength and cognition. 20+ exercises for upper & lower limb rehabilitation. Assistive to Resistive training for complete recovery 3. Physios can treat multiple patients at the same time. 4. "Mobi-L" is 10 times smaller (requires 2 sq ft space) and more affordable (10X times than imported products)

### Knowhow is listed under following categories

Knowhow from	
Scientific/ engineering subject areas	Life sciences/ biosciences & engineering
Investor interest categories	Biotechnology/ Biomedical/ Health Technologies
Industries	Medical Biotechnology, Biomed Products, Medical Healthcare, Diagnostics
Customer categories and nature of business	Businesses and other industries (B2B) ; Foundations/ NGOs/ Agencies(B2F)
Technology readiness levels
