### Knowhow offering

Title	Smart Carbon-TiO2 Technology for Paint Applications
Knowhow is available for	A photocatalytic material available in the form of paste, suspension and thin films that exhibits photocatalytic self-cleaning properties and other interesting properties
Summary	
Advantages	Good visible light photocatalytic activity for indoor/outdoor self-cleaning paints application Good dispersion in solvents High stability under solar and UV light Easily incorporate into any type of device/object (e.g. fabrics or paints or ceramic tiles etc.) Cost effective and easy to scale up

### Knowhow is listed under following categories

Knowhow from	
Scientific/ engineering subject areas	<b>Chemical sciences &amp; engineering</b>
Investor interest categories	<b>Materials Technology including Nanotechnology</b>
Industries	<b>Inorganic and Hybrid materials, Inorganic materials ;</b>
