Leveraging Partnerships to Drive the Growth of Indian BioPharma Industry

CHEMTECH presents one - day focused conference on Biopharmaceuticals to set the roadmap for translating Honorable Prime Minister's vision of 'Make in India' specifically for the biotechnology sector for the pharma industry and highlight the kind of role pharma-biotechnology sector can play to enable his dream of building a healthy nation.

Key Sessions

Mapping the Trends in Global Biopharma Industry: Designed to trace the ongoing development, performance, opportunities and scope of India biopharmaceutical industry in the global market. A panel of visionary entrepreneurs, who rose to the top of their game over the years, will share their **Success Stories** in this session.

Make in India will note the pulse of Indian Biopharma industry and identify the bottlenecks and find solutions through discussion with various stakeholders across key genres of Entrepreneurship, Investments, Skill Set Development and Infrastructure which need significant boost to realise the vision of the Honorable Prime Minister

During the third session, a panel of intelligentsia will review current **Policy & Regulation** issues concerning biopharmaceutical.
